**IBM**

# 000-113

*IBM Systems Storage Solution Design Entry/Midrange  
for DS series v1*

**QUESTION:** 159

An existing customer would like to upgrade to a DS4800 and wants to add more drive space. They currently have three EXP700s that they want to use in the environment from a previous system. What must they do to their current configuration before they add the new EXP810s?

- A. They need to upgrade to the latest firmware and Storage Manager; no additional changes need to be made.
- B. No configuration changes are necessary; the EXP700s can be utilized when adding new EXP810s to the same controller.
- C. Nothing; the upgrade is not supported.
- D. They need to change the EXP700 SFPs to 4 Gb/s to function at the speed of the EXP810 and they need to upgrade Storage Manager.

**Answer:** C

**QUESTION:** 160

Which is a capability of Enhanced Remote Mirroring (ERM)?

- A. One-to-many copy replication
- B. Replication to a DS3000 storage system
- C. One-to-One copy replication
- D. Multiple consistency groups

**Answer:** C

**QUESTION:** 161

Which premium features, common to the IBM DS3000, DS4000, DS5000 storage arrays are useful for disaster recovery needs ?

- A. Flash Volume copy.
- B. Enhanced Remote Mirror (ERM)
- C. Snap Mirror
- D. Shadow Copy

**Answer:** A

**QUESTION:** 162

You have configured a solution that you believe will meet the customers requirements. You have included switches, storage and System x servers. You are concerned that you have missed something and that problems will occur on installation. How can you check your solution proposal?

- A. TechLine
- B. Interoperability guide
- C. Technical Delivery Assessment (TDA)
- D. All the above

**Answer:** D

**QUESTION:** 163

Which of the following will help with Energy efficiency in the IBM DS storage subsystem ?

- A. Larger number of smaller drives
- B. Smaller number of larger drives
- C. Higher disk drive density
- D. Configure Raid 10 in place of existing Raid 5 arrays

**Answer:** B

**QUESTION:** 164

Using Enhanced Remote Mirror (ERM) on an IBM DS4800, what are valid target storage systems?

- A. Only IBM DS4800
- B. All IBM DS4000 and DS5000
- C. All IBM DS3000 and DS5000
- D. All IBM DS3000, DS4000, and DS5000

**Answer:** B

**QUESTION:** 165

In order to achieve a "point in time" copy between a DS5000 and an EMC Clarion storage system, what needs to be deployed?

- A. SRDF
- B. VolumeCopy
- C. RecoverPoint
- D. SVC with FlashCopy

**Answer:** D

**QUESTION:** 166

How many host interface cards are located in a single DS5100 controller module?

- A. 1
- B. 2
- C. 4
- D. 8

**Answer:** A

**QUESTION:** 167

Which is a benefit of a SAS interface over a SCSI interface?

- A. SAS is half duplex
- B. BSAS is full duplex
- C. SAS provides 4-Gbps throughput
- D. SAS allows up to 15 drives attached

**Answer:** Pending Please Send your suggestions to feedback

**QUESTION:** 168

One of the benefits of SAS over SCSI drive technology is that\_\_\_\_\_.

- A. SAS uses Loop Topology.

- B. SAS uses Point to Point Topology.
- C. SAS uses single-porting.
- D. SAS can connect up 48 drives.

**Answer:** B

**QUESTION:** 169

When trying to calculate usable GB while modeling different RAID levels, what tool would you use?

- A. DS4000 Space Calculator
- B. TCONow
- C. Capacity Magic
- D. Storage Magic

**Answer:** A

**QUESTION:** 170

Which is not a built-in component of DS3000, DS4000, and DS5000 storage manager?

- A. Inband and out of band management of IBM DS storage arrays
- B. SMTP error reporting
- C. SNMP error reporting
- D. RSM Call home reporting to IBM support

**Answer:** D

**QUESTION:** 171

A customer recently has implemented a DS5300. They have not had any prior skills or knowledge transfer and are currently experiencing a number of problems administering their premium feature licenses. What should the local sales team propose to the customer?

- A. SupportLine Contract
- B. RSM
- C. 7x24 Maintenance Uplift
- D. Call 800-IBM-SERV

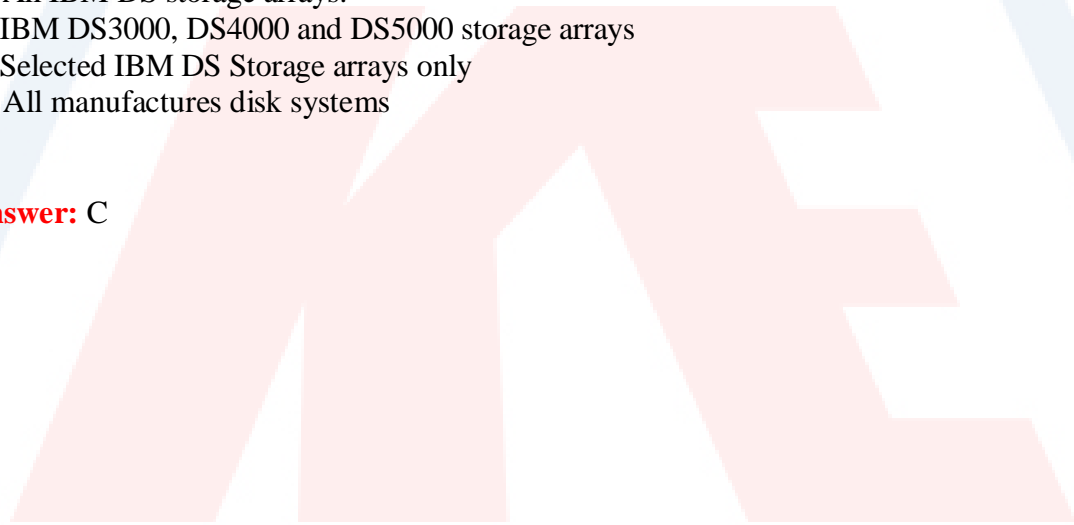

**Answer:** A

**QUESTION:** 172

Which of the following does Disk Magic support ?

- A. All IBM DS storage arrays.
- B. IBM DS3000, DS4000 and DS5000 storage arrays
- C. Selected IBM DS Storage arrays only
- D. All manufactures disk systems

**Answer:** C
