**SOA**

# S90-03A

*SOA Design & Architecture*

**QUESTION: 96**

Which of the following statements is true? Select the correct answer.

- A. A composition initiator must exist as a service.
- B. A composition initiator can be any type of program capable of invoking a service and therefore does not need to be service-oriented.
- C. A composition initiator is often associated with the intermediary role.
- D. None of the above statements are true.

**Answer: B**

**QUESTION: 97**

The Service Statelessness principle aims to establish a mechanism for the runtime deferral of state data in order to minimize a \_\_\_\_\_ condition when the service is \_\_\_\_\_. Select the correct answer.

- A. stateful, passive
- B. stateless, passive
- C. stateful, active
- D. stateless, active

**Answer: C**

**QUESTION: 98**

Which of the following statements are true? **SELECT ALL THAT APPLY**

- A. The application of service-orientation leads to reduced awareness of underlying service implementation details because the Service Abstraction principle advocates limiting what is published about services.
- B. The application of service-orientation leads to increased consistency in how functionality is expressed in the service contract because the Service Reusability principle advocates deferring service contract information at runtime.
- C. The application of service-orientation leads to increased behavioral predictability and increased availability and scalability as a result of applying the Service Autonomy and Service Statelessness design principles.

D. The application of service-orientation leads to increased awareness of available services because the Service Discoverability design principle advocates improving the communications quality of published service information.

**Answer:** A, C, D

**QUESTION:** 99

Which of the following is not an influence of service-orientation? Select the correct answer.

- A. Object-Oriented Analysis and Design (OOAD)
- B. Business Process Management (BPM)
- C. Enterprise Application Integration (EAI)
- D. Fluid Dynamics (FD)

**Answer:** D

**QUESTION:** 100

Which of the following statements is true? Select the correct answer.

- A. A composition member is a service that is not composed by other services.
- B. A composition member is a service that is composed by another service.
- C. A composition member is the same as a sub-controller.
- D. None of the above statements are true.

**Answer:** B
